

# NEW REL Reaction Group

Starts 2/9/2017

Real Estate Lives (REL), a job seeker support group in Tampa, is starting a new small group called **REaction Group**. The purpose of this group is to provide job seekers an opportunity to get their job search questions and issues addressed by the leaders and their fellow job seekers. This will help them to get unstuck and avoid falling into fear, depression, or inaction that can lengthen their job search and cost them significant lost salary. Our goal is to keep job seekers on track so they win a job faster.

We also plan to include time for hands-on work on resumes, cover letters, career portfolios, etc. Please bring your laptop to each meeting so we can do this.

The first meeting will be on Thursday, February 9th, 2017 from 11:30 AM - 1:30 PM at the CentrePoint Building on 5100 West Lemon Street in the Conference Room across from the Cafe on the first floor. The group will only meet on the 2<sup>nd</sup>, 3<sup>rd</sup>, and 4<sup>th</sup> Thursdays of each month. The group leader is Larry LaBelle who is a Career Coach with Training Tamer Inc.

The group will address questions and issues related to all aspects/tasks of the job search process. This group will address issues related to job search tasks that are preventing job seekers from staying on track in their job search.

Below is the list of job search tasks we will address in this group via questions from the job seekers. It also covers SMART goals and accountability that are the key to success in this group.

1. Provide each group member with 10 dedicated minutes of assistance related to any step in the job search process (e.g. resumes, cover letters, interviewing, etc.). Help will come from both the Group Leaders (Larry LaBelle, Jack Brubaker, and Janice Woody) and the other members of the group.

2. Set SMART Goals for each group member where each goal has a realistic completion date

3. Assign an Accountability Partner to each group member who will hold their partner accountable for the SMART Goals he/she have set.
